DREAMING MAURITIUS

“I am extremely proud of this rum. It has been a long journey to get to this result, and we had to overcome many doubts along the way. Today however, we reveal an outstanding rum, mouthful and rich in pleasant notes of coffee, chocolates and nuts. Everything starts with a dream.”

Frederic Bestel, Master Blender

TASTING NOTES

Well balanced notes of chocolate, coffee and nuts. Absolutely stunning!

HOW TO DRINK

Solera 8 Gold of Mauritius is a sipping rum, to be enjoyed pure

Being one of the most exclusive holiday destinations, the island of Mauritius is considered a pearl in the Indian Ocean.

From the 17th century on the small country has a long tradition of growing sugar cane and producing Rum. The fact that in Mauritius both agricole and traditional rum can be developed and blended side-by-side, and even together, makes Mauritius unique in the Rum world.

Solera 8 is presented in a heavy glass carafe with an uncommon shape: the base is round and morphs into a square at the height of the bottle shoulder. A noble gold printing in relief adds to the prestigious new presentation.
